Serving the flight training industry

Established in 2009, the **Flight School Association of North America** is a membership-oriented association with a mission of increasing the pilot population by engaging passion-driven people at an early age. Its membership includes flight schools, firms that provide products or services to the flight training or aviation industry, supporting partners, and individuals. Its inventive aero programs are just one of many ways FSANA helps both new and existing flight schools grow their business. New members welcome; join at fsana.com.
